

**FRIDAY,  
7 JUNE  
2019**

# **XVI INTERNATIONAL LASLAB WORKSHOP**

**Teaching content subjects in English  
in tertiary education**

# Characteristics of the workshop

EMI (English-medium instruction) teachers find teaching their subjects (History, Economy, Maths, etc.) in English challenging. One such challenge is the EMI teacher's role regarding language issues. This is a crucial matter as the vast majority of EMI lecturers in Europe are non-native speakers of English, specialists in their field as opposed to being language experts. In this workshop EMI experts from different European contexts will present theoretical frameworks, practical implications and recommendations to be implemented in the classroom. The workshop will be held entirely in English and is aimed at teachers who are currently teaching or intend to teach content subjects in English.

**Organizing Committee:** University of Cantabria &  
LASLAB (Language and Speech Lab: [www.laslab.org](http://www.laslab.org))

## PROGRAMME FRIDAY, JUNE 7

- 8.30-9.00** Registration
- 9.00-9.10** Opening: Teresa Susinos, Vicerrector for Internationalisation and Cooperation & Francisco Gallardo del Puerto, Academic Director for Language Policy (University of Cantabria)
